

CONSULTING VIAREPORT CAN ASSIST YOU WITH OUR TEAM OF CONSULTANTS EXPERIENCED IN THE FIELD OF FINANCIAL INFORMATION SYSTEMS

Because you need to stay up and running every day, we can provide support in any part of the lifecycle of your application :

➤ Financial consolidation

➤ Reporting and dashboards

➤ Budget planning

OUR CONSULTING EXPERTISE

Viareport's Consulting Services are structured around four areas of expertise in financial reporting and consolidation:

- **Project:** we can implement or revamp your financial reporting and consolidation applications.
- **Training:** we offer training in consolidation tools and functions.
- **TPAM:** we offer daily third party application maintenance and support for SAP solutions.
- **Expertise:** we can implement advanced settings for SAP BFC, audit the performance of your platform, develop customer-specific tools or turnkey solutions, etc. To find out more, click here to go to the website of our partner, **Syslap** (www.syslap.com).

OUR TARGET AUDIENCE

Viareport's Consulting Services address the issues that finance, legal and IT departments may encounter. We also assist chartered accountancy firms who need to use a powerful tool to perform statutory consolidations for their own clients.

OUR CONSULTANTS

Our Viareport consultants are experts in the following fields:

- Business (accounting, statutory consolidation, management reporting, budget planning, risk management and corporate governance)
- Product (integration with SAP EPM applications)
- Project management and project management support
- Functional and software training
- IT systems (technical architecture projects, installation of SAP applications, support for SAP upgrades, performance audit, specific developments).

OUR STRENGTHS

- **Closeness and responsiveness:** a dedicated Help Desk available 7 days a week.
- **Dual-skilled consultants:** our consultants are recognized as experts by corporate administration and finance departments as well as IT departments.
- Turnkey solutions.
