

## TRAINING OUR TRAINING DIVISION CAN ASSIST YOU IN DEVELOPING YOUR STAFF'S SKILLS

Viareport, an accredited training center, proposes a full range of training programs on reporting and consolidation.

### WITH VIAREPORT,

- You can improve your skills on how to use SAP BFC (previously known as Cartesis Magnitude) while learning more about financial consolidation and reporting.
- Each training course is adapted to your level of knowledge of the application and to your job.
- Our trainers all possess skills in both finance as well as IT systems. The diversity and challenges of their role have enabled them to develop best practices which they will share with you during the training seminars.
- We also use a tried and tested training strategy which relies on learning through case studies and real-life examples.

### OUR TARGET AUDIENCE

- **Finance departments** : consolidation accountants, accountants, management controllers, financial controllers or CFOs.
- **IT departments** : technical or functional administrators, project owners, system architects or IT directors.
- **Chartered accountancy firms** or audit firms.

### A FEW EXAMPLES

- Functional and technical administration of the SAP BFC software.
- Audit of consolidated accounts in SAP BFC.

## OUR STRENGTHS

- **Proven training strategy:** our consultant-trainers are specialized in their field and are skilled in training.
- **Training project:** we define the objectives of your training program together with you.

## TAILOR-MADE TRAINING

Viareport offers tailor-made training courses that are specifically designed to meet your needs once our consultant-trainers have analyzed them. Please contact the Viareport Training division for any queries you may have.
