

## **ONLINE** WORLDWIDE UNLIMITED ACCESS TO YOUR SECURE DATA USING OUR CONSOLIDATION AND REPORTING SOLUTION

**We adapt consolidation, budget planning and reporting solutions to the SaaS model for Groups and chartered accountancy firms.**

### **OUR ONLINE EXPERTISE**

A pioneer in adapting consolidation, budget planning and reporting solutions to the SaaS model, Viareport's Online service uses *Software as a Service* technology and SAP applications to provide turnkey solutions that include :

- Powerful and perfectly adapted software
- Secure and optimized hosting
- A dedicated and effective Help Desk support team

### **Benefits of our Online offering :**

- IT cost containment
- Availability of secure data
- Expertise on your operating environment with shorter deadlines for problem resolution or for your requests to customize the configuration

### **OUR TARGET AUDIENCE :**

- **Groups :**
  - Finance departments: consolidation accountants, Group and subsidiary accountants, management controllers, financial controllers or CFOs.
  - IT departments : technical or functional administrators or IT directors.
- **Chartered accountancy firms or audit firms.:**
  - Consolidation accountants, managers, project managers, partners, auditors, etc.

### **OUR HELP DESK**

Our Help Desk team, consisting of consultants who are IT systems and business specialists, provides continuous support to optimize your platform. Using Internet connection methods, our experts ensure the optimal operation of your platform.

### **Our approach**

- We maintain your application in optimal conditions by performing regular technical tests on the platform.
- We provide continuous administration of your platform by adapting the configuration, managing user access and providing functional support.

### **Our commitments**

- Dual-skilled consultants: specializing in both finance as well as IT systems.
- Responsiveness: guaranteed response time within a specified time frame.
- Availability : from 9 am to 7 pm Monday to Thursday, and from 9 am to 6 pm on Friday, with the possibility of on-call assistance.
- Flexibility : our services can be adapted in real-time to different requests for assistance.

## REFERENCE :

6 The Viareport solution meets our needs very satisfactorily. It enables us to work on just one database from different geographical locations without requiring any specific equipment other than an Internet connection. There is no need for IT staff, which is a relatively important issue that affects our way of working. It also enables us to access a powerful and high performance tool without making any major investments or commitments.

**Michèle Roget,**  
**Consolidation Manager - Socaldi**

## OUR STRENGTHS :

- **Consolidation engine** : powerful, reliable and recognized by the market.
- **No IT investment required** : you just need a Web browser to start using the data in your environment.
- **Data confidentiality and protection** : data backups, data restoration, user access management, encrypted data transfers using https protocol.
- **Availability and performance**: High availability of the application platform, 24 hours a day, 7 days a week.
