

LOCK!

DO YOU WANT TO SEGMENT THE WAY LOCAL DATA IS REPORTED ?

Lock!, a functionality integrated within SAP BFC, enables users at central site to lock and unlock intercompany data entered by subsidiaries in real-time using specific packages.

ITS FEATURES :

Intercompany data can be locked and unlocked in real-time. Lock! gives you the possibility of locking data for all of the companies or for just some of them, e.g. sub-Group, business division or country.

OUR TARGET AUDIENCE :

Lock! is intended for Groups who publish their consolidated accounts using SAP BFC and who want to optimize their subsidiaries' reporting cycle.

OUR STRENGTHS

- Management of the entire Group's reporting cycle at central site.
- No generation of reporting sets required.

OUR OTHER SOLUTIONS :

- **Vialease**, for managing lease financing.
- **Viatik**, for managing corporate legal information.
- **Rapprolive!**, for intercompany reconciliations.
- **Datalive!**, for auditing source data.
- **Notes to the financial statements**.
